This is an example of one of the many Major Branch Refurbishments that we have carried out for the Society in our 25 year plus relationship with them. This particular project involved the fitting out of a former shoe shop on two floors, the Ground Floor space being used for the counter and Interview Rooms with the upper level housing the Administration Area, WC's and Staffroom as well as the Managers Office. As you would expect of the countries leading Building Society everything is of the highest standard and that is why we have had such a long standing relationship with Nationwide.
