Case Study/Romans/Office Refurbishment

Contract Value £45,000.00

Here is a classic example of the many refurbishments we have carried out over the last few years for Estate Agents, this being for Romans at their office in Fleet in Hampshire. Here the existing unit was stripped out and temporary screening was erected to allow the office to continue trading whilst we fitted out the other half of the shop and then the two were switched over. The design of the shop incorporated new plastered walls and ceilings both of which featured curved areas. As you can see from the images the walls and ceilings were not the only things to be curved, the various floor finishes had curves cut within them and the new workstations were manufactured curved too. Another feature shown here are the wall and window graphics these have become increasingly popular and add a real wow factor to any fit out.
